On behalf of the Paraclete Foundation, we wish to offer our support to this project which will benefit the residents of our community as well as residents of the surrounding communities in providing access for our residents to information in order to make informed decisions in today's society.

Our Township strongly supports the vision of a library and technology for our community which will help to lift the literacy of the entire community for many generations to come.

We strongly encourage your organization to extend assistance to the Paraclete Foundation in the form of a low cost loan in order to move this very worthwhile project forward.

Thank you for any assistance which your office can offer to the Paraclete Foundation in this worthwhile endeavor.

Yours truly,

Washington Township
Randy Stump - iwp. Sec
